

SCHOOL ABSENCE AND HOLIDAY SICKNESS RECORD

NATIONAL SURVEY OF THE HEALTH AND DEVELOPMENT OF CHILDREN

INSTITUTE OF CHILD HEALTH (UNIVERSITY OF LONDON)

SOCIETY OF MEDICAL OFFICERS OF HEALTH, & POPULATION INVESTIGATION COMMITTEE

13, ENDSLEIGH STREET, LONDON, W.C.1.

Ref. No.	
Name	FOR THOSE WHO HAVE MOVED
Address	New Address
	
	
School	L.E.A.
	New School.....

If the Family has moved to another Authority please enter the new address and the name of the new L.E.A. and new school in the space provided. If the child cannot be traced please enter the last address and any other information that might help us to trace him.

HOW TO FILL IN THIS FORM

The aim of this form is to bring up to date our information on illnesses and accidents and to record school absences and holiday sickness between September, 1952, and the end of the Christmas holidays. It should be completed during the early weeks of the January term when any illnesses or accidents that have occurred during the Christmas holidays will still be fresh in the mothers' minds.

The third question on this form refers to school absences. The part printed in red should be copied from the special school absence record which the class teachers have been keeping for each survey child, and the brief notes on treatment (printed in black) should be added when the mother is visited. Each period of absence should be checked with the mother and any further details that are of interest should be entered in the "Remarks" column. It is hoped that reasons will be given for all periods of absence whether from illness or any other cause and that for each illness you will be able to say whether the child was put to bed and where and by whom he was treated.

The fourth question asks for details about illnesses and accidents occurring during the school holidays. In order to refresh the mother's memory a list of the common illnesses and of those in which we are specially interested is given. The mothers should be asked specifically whether their child has had each of these illnesses.

In addition to the information on school absences (Q.3) holiday sickness (Q.4) and special clinics (Q.5), we are particularly anxious to have a full record of all attacks of **whooping cough, measles, mumps or scarlet fever**, of all **accidents** and of all **hospital admissions** which have occurred since the last survey in March 1952. Details of these illnesses and accidents should be entered in Questions 6, 7 and 8 even if they have already been mentioned in the earlier Questions 3 and 4.

Questions should be answered by putting a circle round the code number opposite the mother's answer. If no answer fits please write the answer in the space directly under the question. If the question cannot be answered ring 'X' for no answer. If it does not apply ring 'Y'.

Completed Forms should be returned to the School Medical Officer and not directly to the Joint Committee.

1. If this child has died please state	
(a) Date of death	
(b) Cause of death (if known)	
2. (For all living children)	
(a) Parent or relative interviewed	Mother 1
	Father 2
	Both parents 3
	Other person, namely.....
	No one 0
(b) If mother not interviewed give reasons
